BY ADVICE LETTER NO. 114, FILED ON SEPTEMBER 6, 1991.

SUMMARY

LOS ANGELES SMSA LIMITED PARTNERSHIP (LASLP), by Advice Letter No. 114, filed on September 6, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add four new cellular radiotelephone cell sites to its existing cellular system serving the Los Angeles Metropolitan Service Area. This Resolution authorizes the construction of four new cell sites, known as the ETC, Lakewood, Creekside, and Westchester sites, located at 2721 Michelle Dr., Tustin; 5220 Clark Ave., Lakewood; 12423 Riverside Ave., Norco; and 917 West Hyde Park Blvd., Inglewood, respectively. No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (Decision 90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 114 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The proposed construction for the four new cell sites will be located at 2721 Michelle Dr., Tustin; 5220 Clark Ave., Lakewood; 12423 Riverside Ave., Norco; and 917 West Hyde Park Blvd., Inglewood and are known as the ETC, Lakewood, Creekside, and Westchester sites, respectively. The sites will consist of a 12 x 28 foot equipment shelter, 3 cellular and 2 microwave antennas attached to a 60 foot monopole, and communication equipment (ETC); a 418 square foot communication facility within the penthouse of an existing 5 story building, 2 cellular and 2 microwave antennas placed on the parapet and one face of the building, and communication equipment (Lakewood); a 8 x 35 foot free standing communications structure housing radio and power equipment and 3 cellular antennas and 2 microwave antennas attached to a 100 foot monopole (Riverside); and a cellular enhancer and 3 cellular antennas placed on the roof of an existing one story building (Westchester).
