Date: October 25, 1991

R E S O L U T I O N

RESOLUTION T-14649. SACRAMENTO CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE SACRAMENTO CELLULAR GEOGRAPHIC SERVICE AREA.

BY ADVICE LETTER NO. 69, FILED ON SEPTEMBER 25, 1991.

---

SUMMARY

SACRAMENTO CELLULAR TELEPHONE COMPANY (SCTC), by Advice Letter No. 69, filed on September 25, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the Sacramento Cellular Geographic Service Area. This Resolution authorizes the construction of the cell site, known as the Rancho Murieta site, located at 15731 Jackson Road, Sloughouse, California. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 69 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Rancho Murieta site represents an additional cellular radiotelephone facility not described in Decision 87-10-037, granting SCTC a certificate of public convenience and necessity.

Resolution T-14649  
Effective October 25, 1991  
SCTC/A.L. No. 69/WSM

SCTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the Federal Aviation Administration, the Federal Communications Commission, and the County of Sacramento.

The proposed construction will be located at 15731 Jackson Road, Sloughhouse, California and is known as the Rancho Murieta site. It will consist of twelve cellular antennas, six microwave dishes, a DC power plant, radio transmitting/receiving equipment, a 150 foot self-supporting lattice tower, and a 12' high x 28' long x 10' wide concrete and steel modular building.

The Rancho Murieta site will become part of SCTC's cellular system serving the Sacramento Cellular Geographic Service Area.

#### NOTICE

Public notice that SACRAMENTO CELLULAR TELEPHONE COMPANY filed Advice Letter No. 69 requesting authority to construct the Rancho Murieta site appeared in the California Public Utilities Commission's September 27, 1991 Daily Calendar. In addition, copies of SCTC's Advice Letter No. 69 were mailed in accordance with the Commission's General Order No. 96-A, Section III. G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.
