RESOLUTION T-14664  
Date: November 12, 1991

R E S O L U T I O N

RESOLUTION T-14664. LOS ANGELES SMSA LIMITED PARTNERSHIP. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF FOUR (4) NEW CELL SITES IN THE LOS ANGELES CELLULAR GEOGRAPHIC SERVICE AREA.

BY ADVICE LETTER NO. 118, FILED ON OCTOBER 10, 1991.

---

SUMMARY

LOS ANGELES SMSA LIMITED PARTNERSHIP (LASLP), by Advice Letter No. 118, filed on October 10, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add four (4) new cellular radiotelephone cell sites to its existing cellular system serving the Los Angeles Cellular Geographic Service Area. This Resolution authorizes the construction of four (4) new cell sites, known as the South Gate (Lynwood), Riverside (Mira Loma), Long Beach (Downtown LB), Temecula (Temecula) sites, located at 11136 Scott Avenue, South Gate, California 90280; 5800 Hamner Avenue, Mira Loma, California 91752; 465 Elm Avenue, Long Beach, California 90277; and 2600 feet south of the southern terminus of Front Street, Temecula, California, respectively. No protests to this Advice Letter have been filed.

BACKGROUND

Under G.O. 159 (Decision 90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 118 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

Resolution T-14664  
Effective November 12, 1991  
LASLP/A.L. No. 118/WSM

The four (4) new sites, South Gate (Lynwood), Riverside (Mira Loma), Long Beach (Downtown LB), Temecula (Temecula), represent additional cellular radiotelephone facilities not described in Decision 84-04-014, granting LASLP a certificate of public convenience and necessity.

LASLP has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the Federal Aviation Administration, the Federal Communications Commission, the City of South Gate, the County of Riverside, the City of Long Beach, and City of Temecula.

The proposed construction for the four (4) new cell sites is respectively described as follows:

1. The South Gate (Lynwood) cell site, located at 11136 Scott Avenue, South Gate, California 90280, will consist of the construction and maintenance of a 22 foot by 22 foot free-standing cellular communications structure to house electrical, radio, and power equipment. The project also involves the placement of three faces of cellular antennas and two microwave antennas attached to a 80 foot monopole.
2. The Riverside (Mira Loma) cell site, located at 5800 Hamner Avenue, Mira Loma, California 91752, will consist of the construction and maintenance of an 8 foot by 35 foot free-standing cellular communications structure to house electrical, radio, and power equipment. The project also involves the placement of three faces of cellular antennas and two microwave antennas attached to a 60 foot monopole.
3. The Long Beach (Downtown LB) cell site, located at 465 Elm Avenue, Long Beach, California 90277, will consist of the construction and maintenance of an approximately 695 square foot cellular communications facility on the third floor of an existing three story building. The facility will consist of interior space to house electrical, radio, and power equipment. The project also involves the placement of three faces of cellular antennas and two microwave antennas. One antenna face will be attached to the parapet of the building and two faces will be mounted to the roof of the building.
4. The Temecula (Temecula) located at 2600 feet south of the southern terminus of Front Street, Temecula, California, will consist of the construction and maintenance of an 8 foot by 40 foot free-standing cellular communications structure to house electrical, radio, and power equipment. The project also involves the placement of cellular and microwave antennas attached to an existing 105 foot lattice tower.

Resolution T-14664  
Effective November 12, 1991  
LASLP/A.L. No. 118/WSM

The four (4) new cell sites, South Gate (Lynwood), Riverside (Mira Loma), Long Beach (Downtown LB), Temecula (Temecula), will become part of LASLP's cellular system serving the Los Angeles Cellular Geographic Service Area.

#### NOTICE

Public notice that LOS ANGELES SMSA LIMITED PARTNERSHIP filed Advice Letter No. 118 requesting authority to construct four (4) new cell sites, South Gate (Lynwood), Riverside (Mira Loma), Long Beach (Downtown LB), Temecula (Temecula) appeared in the California Public Utilities Commission's October 15, 1991 Daily Calendar. In addition, copies of LASLP's Advice Letter No. 118 were mailed in accordance with the Commission's General Order No. 96-A, Section III. G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.

#### PROTESTS

No protests have been filed on LASLP's Advice Letter No. 118.

#### FINDINGS

1. On October 10, 1991, LOS ANGELES SMSA LIMITED PARTNERSHIP filed Advice Letter No. 118 requesting Executive authorization to construct four (4) new cell sites, South Gate (Lynwood), Riverside (Mira Loma), Long Beach (Downtown LB), Temecula (Temecula), located at 11136 Scott Avenue, South Gate, California 90280; 5800 Hamner Avenue, Mira Loma, California 91752; 465 Elm Avenue, Long Beach, California 90277; and 2600 feet south of the southern terminus of Front Street, Temecula, California, respectively.
2. The South Gate (Lynwood), Riverside (Mira Loma), Long Beach (Downtown LB), Temecula (Temecula) sites represent additional cellular radiotelephone facilities not described in Decision 84-04-014, granting LASLP a certificate of public convenience and necessity.
3. Decision 90-03-080 adopts G.O. 159 which sets forth certain requirements for the filing of advice letters requesting authorization to construct cellular radiotelephone facilities not described in a utility's certificate of public convenience and necessity.

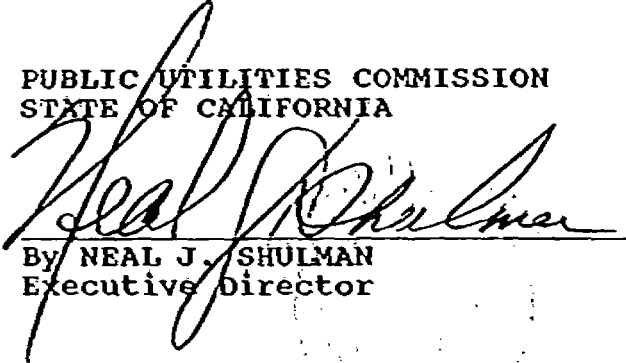

Resolution T-14664  
Effective November 12, 1991  
LASLP/A.L. No. 118/WSM

4. Advice Letter No. 118 conforms to the requirements of Decision 90-03-080 and G.O. 159.
5. A LASLP officer signed a declaration which states that LASLP has received all necessary permits or approvals from the governmental entities listed in Advice Letter No. 118.
6. Advice Letter No. 118 lists the following entities which have jurisdiction over the proposed construction of the South Gate (Lynwood), Riverside (Mira Loma), Long Beach (Downtown LB), Temecula (Temecula) cell sites: the Federal Aviation Administration, the Federal Communications Commission, the City of South Gate, the County of Riverside, the City of Long Beach, and City of Temecula.
7. No protests to Advice Letter No. 118 have been received.

THEREFORE, IT IS ORDERED that:

- (1) LOS ANGELES SMSA LIMITED PARTNERSHIP's request for authority to construct four (4) new cell sites, South Gate (Lynwood), Riverside (Mira Loma), Long Beach (Downtown LB), Temecula (Temecula), is granted.
- (2) The effective date of this resolution is November 12, 1991.
