SUMMARY

U S WEST CELLULAR OF CALIFORNIA, INC. (U S WEST), by Advice Letter No. 62, filed on October 25, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the San Diego area. This Resolution authorizes the construction of the cell site, known as the Solana Beach site, located at 505 Lomas Santa Fe Drive, Solana Beach, CA 92075. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 62 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Solana Beach site represents an additional cellular radiotelephone facility not described in Decision 85-12-023, granting U S WEST a certificate of public convenience and necessity.

Two four-foot whip antennas will also be mounted on the platform. Cellular telephone electronic equipment will be housed in the existing building. Four additional four-foot whip antennas may be mounted in the future on or near the platform.
