RESOLUTION T-14761. SACRAMENTO CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE SACRAMENTO METROPOLITAN STATISTICAL AREA.

BY ADVICE LETTER NO. 72, FILED ON NOVEMBER 25, 1991.

SUMMARY

SACRAMENTO CELLULAR TELEPHONE COMPANY (SCTC), by Advice Letter No. 72, filed on November 25, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the Sacramento Metropolitan Statistical Area. This Resolution authorizes the construction of the cell site, known as the Lower Sunrise site, located at 11267 Coloma Road, Rancho Cordova, CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 72 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Lower Sunrise site represents an additional cellular radiotelephone facility not described in Decision 87-10-037, granting SCTC a certificate of public convenience and necessity.

Resolution T-14761
Effective December 26, 1991
SCTC/A.L. No. 72/JGB

SCTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission); the County of Sacramento, the Federal Aviation Administration, and the Federal Communications Commission.

The proposed construction will be located at 11267 Coloma Road, Rancho Cordova, CA and is known as the Lower Sunrise site. It will consist of twelve antennas mounted on a 60-foot wooden pole and an equipment shelter.

The Lower Sunrise site will become part of SCTC's cellular system serving the Sacramento Metropolitan Statistical Area.
