RESOLUTION T-14779. LOS ANGELES CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE LOS ANGELES CELLULAR GEOGRAPHIC SERVICE AREA.

BY ADVICE LETTER NO. 199, FILED ON DECEMBER 6, 1991.

SUMMARY

LOS ANGELES CELLULAR TELEPHONE COMPANY (LACTC), by Advice Letter No. 199, filed on December 6, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the Los Angeles Cellular Geographic Service Area. This Resolution authorizes the construction of the cell site, known as the number 20 site, located at 1134 South Western Avenue, Los Angeles. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 199 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The number 20 site represents an additional cellular radiotelephone facility not described in Decision 84-06-110, granting LACTC a certificate of public convenience and necessity.

It will consist of 413 square feet of an existing cinder block shelter which will be used to house communication equipment, and a 15 foot high antenna structure which will be placed on the roof with 12 cellular antennas.

The number 20 site will become part of LACTC's cellular system serving the Los Angeles Cellular Geographic Service Area.
