RESOLUTION T-14780. LOS ANGELES CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE LOS ANGELES CELLULAR GEOGRAPHIC SERVICE AREA

BY ADVICE LETTER NO. 200, FILED ON DECEMBER 6, 1991.

---

SUMMARY

LOS ANGELES CELLULAR TELEPHONE COMPANY (LACTC), by Advice Letter No. 200, filed on December 6, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the Los Angeles Cellular Geographic Service Area. This Resolution authorizes the construction of the cell site, known as the number 59 site, located at 4619 1/2 Broadway Blvd., Los Angeles. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 200 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The number 59 site represents an additional cellular radiotelephone facility not described in Decision 84-06-110, granting LACTC a certificate of public convenience and necessity.

LACTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the Federal Communications Commission and the City of Los Angeles.

The proposed construction will be located at 4619 1/2 Broadway Blvd., Los Angeles and is known as the number 59 site. It will consist of a 360 square foot coach housing communication equipment, a 60-foot monopole and four cellular antennas.

The number 59 site will become part of LACTC's cellular system serving the Los Angeles Cellular Geographic Service Area.
