METROPOLITAN AREA.

BY ADVICE LETTER NO. 83, FILED ON DECEMBER 17, 1991.

SUMMARY

PACTEL CELLULAR (PTC), by Advice Letter No. 83, filed on December 17, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the San Diego metropolitan area. This Resolution authorizes the construction of the cell site, known as the Mission Bay site, located at 1851 San Diego Avenue, San Diego. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 83 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Mission Bay site represents an additional cellular radiotelephone facility not described in Decision 85-04-023, granting PTC a certificate of public convenience and necessity.

The proposed construction will be located at 1851 San Diego Avenue, San Diego and is known as the Mission Bay site. It will consist of a 450 sq. ft. cellular communications facility on the first floor of an existing two-story commercial building. Ten cellular antennas will be mounted on the parapet wall of the roof.

The Mission Bay site will become part of PTC's cellular system serving the San Diego metropolitan area.
