RESOLUTION T-14801. LOS ANGELES SMSA LIMITED PARTNERSHIP. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF THREE NEW CELL SITES IN THE LOS ANGELES METROPOLITAN AREA.

BY ADVICE LETTER NO. 124, FILED ON DECEMBER 16, 1991.

SUMMARY

LOS ANGELES SMSA LIMITED PARTNERSHIP (LASLP), by Advice Letter No. 124, filed on December 16, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add three new cellular radiotelephone cell sites to its existing cellular system serving the Los Angeles Metropolitan Area. This Resolution authorizes the construction of three new cell sites, known as the Ventura-Point Mugu, Culver City-Mar Vista Freeway, and Colton-San Bernardino 2 sites, located at Pacific Coast Highway (north of Point Mugu), Oxnard, CA, 3961 Sepulveda Boulevard, Culver City, CA, and 1600 Fairway Drive, Colton, CA, respectively. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (Decision 90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 124 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The three new sites, Ventura-Point Mugu, Culver City-Mar Vista Freeway, and Colton-San Bernardino 2, represent additional

cellular radiotelephone facilities not described in Decision 84-04-014, granting LASLP a certificate of public convenience and necessity.

LASLP has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the County of Ventura, the Cities of Culver City and Colton, the Federal Aviation Administration, and the Federal Communications Commission.

The proposed construction for the three new cell sites will be located at Pacific Coast Highway (north of Point Mugu), Oxnard, CA; 3961 Sepulveda Boulevard, Culver City, CA; and 1600 Fairway Drive, Colton, CA; and are known as the Ventura-Point Mugu, Culver City-Mar Vista Freeway, and Colton-San Bernardino 2 sites, respectively. The Ventura-Point Mugu site will consist of two antennas mounted on an existing 60 foot wood utility pole and an equipment shelter. The Culver City-Mar Vista Freeway site will consist of an equipment shelter and three faces of cellular antennas and a microwave antenna mounted on the roof of an existing building. The Colton-San Bernardino 2 site will consist of an equipment shelter and three faces of cellular antennas and two microwave antennas mounted on a 90 monopole located on the roof of an existing building.

The three new cell sites, Ventura-Point Mugu, Culver City-Mar Vista Freeway, and Colton-San Bernardino 2, will become part of LASLP's cellular system serving the Los Angeles Metropolitan Area.
