BY ADVICE LETTER NO. 65, FILED ON NOVEMBER 15, 1991.

SUMMARY

U S WEST CELLULAR OF CALIFORNIA, INC. (U S WEST), by Advice Letter No. 65, filed on November 15, 1991, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the San Diego Statistical Area. This Resolution authorizes the construction of the cell site, known as the Lemon Grove site, located at 7227 Broadway, Lemon Grove, CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 65 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Lemon Grove site represents an additional cellular radiotelephone facility not described in Decision 85-12-023, granting U S WEST a certificate of public convenience and necessity.

Effective December 16, 1991

The proposed construction will be located at 7227 Broadway, Lemon Grove, CA and is known as the Lemon Grove site. It will consist of twelve panel antennas, two omnidirectional antennas, and two link antennas mounted on the roof of an existing building and an equipment shelter.

The Lemon Grove site will become part of U S WEST's cellular system serving the San Diego Statistical Area.
