RESOLUTION T-14861  
Date: February 17, 1992

R E S O L U T I O N

RESOLUTION T-14861. LOS ANGELES CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE LOS ANGELES CELLULAR GEOGRAPHIC CELLULAR SERVICE AREA.

BY ADVICE LETTER NO. 222, FILED ON JANUARY 17, 1992.

---

SUMMARY

LOS ANGELES CELLULAR TELEPHONE COMPANY (LACTC), by Advice Letter No. 222, filed on January 17, 1992, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the Los Angeles Cellular Geographic Cellular Service Area. This Resolution authorizes the construction of the cell site, known as "LACTC site #233", located at 6930 Valjean Ave., Los Angeles. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159 (D.90-03-080), a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 222 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

LACTC site #233 represents an additional cellular radiotelephone facility not described in Decision 84-06-110, granting LACTC a certificate of public convenience and necessity.

LACTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the Federal Communications Commission and the City of Los Angeles.

The proposed construction will be located at 6930 Valjean Ave., Los Angeles and is known as LACTC site #233. It will consist of radio transmitters and receivers, power and electrical equipment placed in an equipment room within an existing two-story building, and four Antel-type antennas placed on the roof.

LACTC site #233 will become part of LACTC's cellular system serving the Los Angeles Cellular Geographic Cellular Service Area.

#### NOTICE

Public notice that LOS ANGELES CELLULAR TELEPHONE COMPANY filed Advice Letter No. 222 requesting authority to construct LACTC site #233 appeared in the California Public Utilities Commission's January 22, 1992 Daily Calendar. In addition, copies of LACTC's Advice Letter No. 222 were mailed in accordance with the Commission's General Order No. 96-A, Section III. G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.
