Date: March 19, 1992

R E S O L U T I O N

RESOLUTION T-14884. SACRAMENTO CELLULAR TELEPHONE COMPANY. EXECUTIVE ORDER AUTHORIZING THE ADDITION OF A CELL SITE IN THE SACRAMENTO METROPOLITAN STATISTICAL AREA.

BY ADVICE LETTER NO. 79, FILED ON FEBRUARY 19, 1992.

---

SUMMARY

SACRAMENTO CELLULAR TELEPHONE COMPANY (SCTC), by Advice Letter No. 79, filed on February 19, 1992, requests authority under the provisions of General Order 159 (G.O. 159) and Decision No. 90-03-080 (March 28, 1990) to add a cellular radiotelephone cell site to its existing cellular system serving the Sacramento Metropolitan Statistical Area. This Resolution authorizes the construction of the cell site, known as the Auburn/Folsom Enhancer site, located at 9855 King Road, Loomis, CA. No protests to this Advice Letter have been received.

BACKGROUND

Under G.O. 159, a cellular utility must obtain authorization from the Commission before construction of cellular facilities not described in the decision granting the certificate of public convenience and necessity. A cellular utility must file an advice letter requesting authorization to construct after it has received all approvals for the proposed construction required by any governmental agencies with jurisdiction over the proposed construction, or which would have jurisdiction absent the Commission's preemption.

DISCUSSION

Advice Letter No. 79 contains all the information required under G.O. 159 to be included in an Advice Letter filing for authority to construct additional cellular facilities.

The Auburn/Folsom Enhancer site represents an additional cellular radiotelephone facility not described in Decision 87-10-037, granting SCTC a certificate of public convenience and necessity.

Resolution T-14884  
Effective March 19, 1992  
SCTC/A.L. No. 79/JGB

SCTC has obtained permits or approvals from the following governmental entities and asserts that these entities comprise all governmental entities that have jurisdiction over the proposed construction (with the exception of the California Public Utilities Commission): the County of Placer, the Federal Aviation Administration, and the Federal Communications Commission.

The proposed construction will be located at 9855 King Road, Loomis, CA, and is known as the Auburn/Folsom Enhancer site. It will consist of an equipment shelter and five antennas mounted to a 40-foot wooden utility pole.

The Auburn/Folsom Enhancer site will become part of SCTC's cellular system serving the Sacramento Metropolitan Statistical Area.

#### NOTICE

Public notice that SACRAMENTO CELLULAR TELEPHONE COMPANY filed Advice Letter No. 79 requesting authority to construct the Auburn/Folsom Enhancer site appeared in the California Public Utilities Commission's February 24, 1992, Daily Calendar. In addition, copies of SCTC's Advice Letter No. 79 were mailed in accordance with the Commission's General Order No. 96-A, Section III. G, to competing utilities either privately or publicly owned, adjacent utilities either privately or publicly owned, utilities having requested such notification, and other interested parties having requested such notification.
