**SUMMARY**

Pacific Bell (Pacific) requests authority under provisions of General Order No. 96-A (G.O. 96-A) and Decision Nos. (D.) 88-09-059 and 91-01-018 to deviate from filed tariff schedules in order to provide Centrex service to the companies listed above, under customer-specific contracts.

This Resolution authorizes Pacific to provide Centrex service to the above companies under contract at rates which are discounted from the tariff rates. No protests to the Advice Letters were filed.

**BACKGROUND**

In D.88-09-059 the Commission adopted a modified Phase I Settlement (hereinafter referred to as the Settlement). Under the provisions of the Settlement, the Local Exchange Companies (LECs) are allowed to provide certain services, such as Centrex service, under the terms of contracts between LECs and customers. The Settlement provides that such contracts become effective upon authorization by the Commission.

The process and requirements for filing of advice letters to request authorization of customer-specific contracts are set forth in Appendix A of D.88-09-059. Additional specifications for advice letter filings requesting authorization to provide service under contract are provided in Resolution Nos. T-13091 and T-13069.

D.90-04-031 further requires that special contracts comply with the principles of unbundling, nondiscriminatory access, imputation, and basing rate structures of monopoly utility services on underlying costs. However, D.91-01-018 has relieved Pacific from meeting these requirements until a further decision on this matter is issued. In the interim, LECs may file advice letters for Centrex contracts using the pricing methodology approved by the Commission in D.88-09-059.

Centrex is a central office based communications system equipped with primary station lines capable of receiving direct in-dialed calls and capable of direct out-dialing of calls with optional features.

Under the terms of the contracts, Pacific agrees to provide Centrex service at the monthly rates and estimated annual revenue impacts listed below. Recurring charges for growth lines are at the contract rate, and nonrecurring charges for growth lines will be at the prevailing tariff rate.

NOTICE/PROTESTS

Pacific states that copies of the Advice Letters were mailed to competing and adjacent utilities and/or other utilities and to the customers named in the contracts. Also the Advice Letters were listed in the Commission's Daily Calendar.

No protests to the Advice Letters were filed.

DISCUSSION

In reviewing the Advice Letters, we note the following.

- a. The contracts contain the necessary language which conditions their approval upon Commission authorization.
- b. The Advice Letters and the contracts are public documents.
- c. Pacific requests in the Advice Letters that the workpapers and supporting cost documentation associated with the contracts be treated as confidential.
- d. Pacific has offered the parties to the Phase I Settlement in I.87-11-033 the opportunity to receive and review the workpapers and supporting documentation associated with the contracts if such a party first enters into a protective agreement. The Division of Ratepayer Advocates is excepted from this requirement.
- e. The contracts provide for the offering of Centrex service which is an appropriate service for offering under a contractual arrangement.
- f. The rates and charges set forth in these contracts cover the direct embedded costs of providing the Centrex service offered under the terms of these contracts.
- g. The monthly rate per line, excluding nonrecurring charges, for Centrex service under the terms of the contracts is greater than the sum of the present one-party business measured service rate and the multi-line End User Common Line charge per month per line (LMB+EUCL).
- h. The Advice Letters indicate that the costs and revenues associated with the contracts will be tracked.
- i. Contracts are required in these cases because the customers require fixed price contracts that are competitive with PBX alternatives; this requirement cannot be met by the Centrex service available under Pacific's present tariff.
- j. Pacific has offered to provide the customers deaveraged PBX trunk rates under contract, at rates determined by the same cost methodology used to determine the contract Centrex line rates.

We conclude that the Advice Letters meet the requirements set forth in the Commission orders and G.O. 96-A, and should be approved. However, we must emphasize that our approval is based on the specifics of these Advice Letters and the associated contracts, and does not establish a precedent for the contents or for Commission approval of similar requests.
