

## PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Resolution TL-18314  
Transportation Division  
Page 1 of 2R E S O L U T I O NRESOLUTION APPROVING ISSUANCE AND TRANSFER OF HIGHWAY CARRIER AUTHORITY  
PURSUANT TO SECTIONS 1063.5 AND 3553 OF THE PUBLIC UTILITIES CODE

Applicants named in the attached schedule have applied for common carrier authority and/or highway carrier authority under various sections of the P U Code. In 1988 the Legislature added Sections 1063.5 and 3553 to the Code which set new requirements carriers must meet before the Commission may issue authorities.

Sections 1063.5 and 3553 state that the Commission shall issue or authorize the transfer of no certificate or permit except upon a showing before the Commission and a finding by the Commission that the applicant or proposed transferee meets all of the following requirements:

- (1) Is financially and organizationally capable of conducting an operation that complies with the rules and regulations of the Department of the California Highway Patrol governing highway safety.
- (2) Is committed to observing the hours of service regulations of state and, where applicable, federal law; for all persons, whether employees or subhaulers, operating vehicles in transportation for compensation under the certificate or permit.
- (3) Has a preventive maintenance program in effect for its vehicles used in transportation for compensation that conforms to regulations of the Department of the California Highway Patrol in Title 13 of the California Code of Regulations.
- (4) Participates in a program to regularly check the driving records of all persons, whether employees or subhaulers, operating vehicles used in transportation for compensation requiring a class I driver's license under the certificate or permit.
- (5) Has a safety education and training program in effect for all persons, whether employees or subhaulers, operating vehicles used in transportation for compensation.

- (6) Will maintain its vehicles used in transportation for compensation in a safe operating condition and in compliance with the Vehicle Code and with regulations contained in Title 13 of the California Code of Regulations relative to motor vehicle safety.
- (7) Has filed with the Commission a certificate of worker's compensation insurance coverage for its employees or a certificate of consent to self-insure issued by the Director of Industrial Relations.
- (8) Has provided the Commission an address of an office or terminal where documents supporting the factual matters specified in the showing required by these sections may be inspected by the Commission and the Department of the California Highway Patrol.

With respect to paragraphs (2) and (6) the Commission may base a finding on a certification by the Commission that an applicant has filed, with the Commission, a sworn declaration of ability to comply and intent to comply.

In addition to complying with Sections 1063.5 and/or 3553 applicants meet all other requirements pertaining to financial responsibility, residency, accident liability protection, type of transportation to be performed, expected results of operations and the need for service.

The Commission finds that each of the applicants on the attached schedule has shown that it meets the eight requirements listed in Sections 1063.5 and 3553.

The Commission further finds that the applicants in all other ways qualify for the types of authority applied for and shown on the attached schedule, and concludes that each should be granted such operating rights.

IT IS ORDERED that:

1. Each applicant is granted the type of certificate and/or permit as shown on the attached schedule.

I certify that the foregoing resolution was duly introduced, passed and adopted at a conference of the Public Utilities Commission of the State of California held on the 7th day of September, 1989, the following Commissioners voting favorably thereon:

G. MITCHELL WILK  
President  
FREDERICK R. DUDA  
STANLEY W. HULETT
