Billie,

I just realized we did not provide you our suggestions for the holiday break. I apologize for the delay. Here are our suggestions. We would prefer to keep the last slide. Please let me know if you have any follow up questions.

Thanks,

Kevin

Kevin

Thank you for your time. As to the last slide, it is PG&E's call as to whether we keep them I the powerpoint.

Look forward to your edits if any

Billie

Billie,

We will take a look and get back to you. We would like to keep the last slide in unless it creates concern for you.

Kevin

**Importance:** High

Kevin

I realized in sending these slides out for final comment (see below) that I did not have you on the email list. I would very much appreciate it if you or some designated person at PG&E could review your particular slides again before I put it up on the website with Ken Lewis's permission. I had identified a couple of questions for PG&E.

Thank you

Billie Blanchard

**Importance:** High

Everyone:

We have incorporated your comments on these slides. However, Chloe and I have a few noted comments/questions for your review and input as well as any other changes that you may have before we post it on our website. If at all possible, we would like your final input by Nov. 30<sup>th</sup>.

We have made it clear that this information is subject to change. We would really like to hear from the ISO as well.

Thank you so much for your help,

Billie Blanchard

Comments? I'd like to send this back out to SCE, PG&E, and ISO for a final check before we post.
