Thanks...so i browsed the site..and I don't htink she is
looking for the mgmt jobs..so on the skilled jobs (clerical, support, etc) looks
like you need to take a pre-emloyment test, etc..before they list the available
jobs.... Is there a way to bypass that step, or does Ruby need to go thru the
routine of taking the test .... Is there a way to see a listing of potential
positions first ?
