Re: PG&E's Comments to Draft Resolution L-390

Dear Mr. Harris:

Pacific Gas and Electric Company (PG&E) hereby submit its comments on Draft Resolution L-390, approving the resolution with modifications.

This resolution proposes to release the records of the California Public Utilities Commission (Commission) Consumer Protection and Safety Division's (CPSD's) investigation concerning a gas leak explosion that occurred on December 24, 2008, at Pauite Way in Rancho Cordova, California pursuant to Section 3.4 of Commission General Order 66-C. We understand, however, that the investigation is still open and that the resolution proposes to release the investigation report, with appropriate redactions, if any, once the investigation is complete.

PG&E has no objection to the release of the CPSD's investigation report once complete. We note, however, that to date, this incident investigation has been conducted under the direction of the National Transportation Safety Board (Board). In the course of this year-long investigation, staff from the Board, PG&E and CPSD have worked in close cooperation and that during this cooperative effort, confidential materials or information may have been furnished to the CPSD which would properly be subject to redaction pursuant to Section 2.2 of General Order 66-C.

In order to ensure that confidential materials protected under Public Utilities Code Section 583 are appropriately redacted, PG&E asks for an opportunity to review the draft CPSD records before their release. To avoid any unnecessary delay, PG&E will agree to complete its review and provide suggested redactions within five days.

Very truly yours,

Vice-President
Regulatory Relations
