Subject: FW: Executed MEA Service Agreement

Dawn:

I am resending the 12/24/09 email you requested at our meeting yesterday regarding the forms that PG&E's requested that MEA

complete and submit. These are the most critical forms needed at this time in order to establish MEA in c the transactions needed to support the implementation of MEA's CCA program. Given the relatively short notice of MEA's plan to initiate customer notices, I will be checking to see if

we can still accomodate your proposed timeline (normal setup lead time for ESPs is approximately 30-60 days). In addition, I will forward other applicable forms for MEA to complete.

If you have any questions regarding these forms, or any other operational issues, feel free to contact me.

Thanks, Calvin

Dawn,

We have received your signed CCA service agreement. PG&E understands that the CPUC is currently reviewing MEA's Implementation Plan for compliance with statutory and regulatory requirements. In addition, PG&E is currently reviewing MEA's Implementation Plan for compliance with PG&E's CCA

tariffs, including the requirements of PG&E Rule 23.F.4, and expects to be submitting comments on the Implementation Plan to the Energy Division in early January 2010. Until the Commission certifies MEA's Implementation Plan, PG&E believes that it is premature to enter into a legally binding CCA Service Agreement with MEA. As was the case with the San Joaquin Valley Power Authority, PG&E believes it is appropriate to move forward with executing the CCA Service Agreement only after the Commission has certified the Implementation Plan and other appropriate requirements of the statute and tariffs have been met.

Additionally, in order to proceed as expeditiously as possible with executing a CCA Service Agreement at the appropriate time, please complete and submit the following attached forms required for compliance with CCA requirements:

1) CCA Information Sheet

2) EDI Setup Form

3) Credit Application

Once we have completed our review of these forms and MEA's compliance with other requirements of the CCA tariffs and statute, we will be able to provide you a status on completing the Service Agreement.

Feel free to call me if you have any questions.

Thanks, Redacted

Subject: Executed MEA Service Agreement

Hello Calvin,

Attached please find the Marin Energy Authority signed CCA Service Agreement. An original and two copies will be delivered directly to you via UPS in the next 24 hours. Please execute the document with the appropriate signatures from PG&E and return

to us within the next seven days. This will allow us to include the final executed document in our registration packet to the CPUC.

Please let me know if you have any questions or need additional information.

Thank you very much for your assistance,

Dawn
