Subject: RE: Workpaper Guidance Document

Hi Shilpa,

Based on the utility provided statewide and utility specific non-DEER HIM measures list, we are trying to minimize the amount of workpapers that the utilities will have to prepare. For example we are developing a spreadsheet workbook intended to allow the utilities to define any lighting measure they wish based on DEER data, making the review process potentially quite simple. We are also developing interactive effects methodologies/factors for non-DEER measures. We are also drafting the custom project application review process. We look forward to sending these to the utilities early next week for review, and follow up with an in-person meeting.

Peter

Subject: Workpaper Guidance Document

Natalie, Peter,

I just wanted to check in on the Guidance Document for the workpapers that we discussed two weeks ago on the IOU conference call.

Do you have a date when we should expect it?

Thanks.
Shilpa
