Subject: RE: PWHRP work papers

Hello Cathleen-

I manage the PG&E engineers who prepare our workpapers. The PWHRP workpaper is managed by my group and contracted out to complete. We have been discussing the paper with the other IOUs, but as you know the IOUs are proposing different baselines and models to calculate the savings.

We hope to have our draft workpaper ready for an internal review by the end of this month. We could send it to Peter for an initial review at the same time.

Sincerely,

[Redacted]

Manager, Technical Product Support

Pacific Gas & Electric Company

P.O. Box 770000, mailcode [Redac]

**Subject:** PWHRP work papers

Hi [Redac]

I am working with [Redacted] of PG&E on the new statewide Prescriptive Whole House Retrofit Program. He is the statewide lead for that program. I know Jeff is working with PG&E engineers to develop a custom work paper for the new program (I'm not sure if thats you or someone else). Peter Lai and his DEER team will be reviewing the new PWHRP work paper when it comes in from PG&E and the

other IOUs. It will be a priority for ED's review.

Jeff-- Peter would like to have an opportunity to talk and/or review work paper materials as they are developed now so as to give any early feedback and guidance possible at this stage. Peter has also worked quite a bit with [Redacted] to give initial guidance on custom measure review process.

Jeff-- if [Redac] is not the lead engineer on this PWHRP, can you loop that person into this email chain.

Cheers,  
Cathy
