Subject: RE: March 31 Deadline Conference Call

I'm sorry to be making this a moving target, but I just got scheduled for another IOU EE meeting at 1:30 on Thursday that I do need to attend.

Is it possible for us to move this check-in/feedback meeting to the 3 to 4pm time slot on Thursday? Friday afternoon from 1:30 to 2:30 is also possible, if that would be better. Wednesday afternoon is also open for me at this point, if we would be ready to meet by then.

My apologies for asking to reschedule, since its difficult to find a common time that works for everyone. Thanks!

Hi Kevin,  
If you are referring to the meeting on the performance metrics, I understand that meeting is scheduled from 9 to 12:30 Thursday morning.

To the extent folks are in SF, we can get a room and have a face to face with those of you who will be here for the morning meeting.

Should we still go ahead with a 1:30 time slot, or do you want a bit more time to have a break from the morning meeting? We could push back and go from 2 to 3pm if that would work better for everyone.

I believe many of us have a meeting on Metrics next Thursday in SF?

Does Thursday at 1:30 work for SCE and Sempra? If yes, I will arrange for the call-in number.

Thanks Natalie. Thursday at 1:30 works for PG&E. It would be great if we can see all the documents you have for us by Tuesday (at the latest, earlier is better) so that we can review before our meeting and be able to ask intelligent questions to move this forward.

Looking forward to this collaboration!

Shilpa

**Subject:** RE: March 31 Deadline Conference Call

We'd like to meet next week, but Tuesday is already very booked on my calendar. Would Thursday afternoon from 1:30 to 2:30 be possible? If we can meet next Thursday, we can talk about scheduling follow up meetings and whether a regular weekly meeting through March would be helpful.

ED is finalizing a couple of docs to send to you, with one hopefully coming tomorrow and the other lighting measure workbook early next week. We will also send a follow up email regarding the IOU's common HIM workpapers. We can talk about these docs, any concerns, and next steps when we meet next Thursday.

If Thursday at 1:30 is not good, let us know and we can try to come up with a better time.

Great idea. We need to keep the meeting focused as we all have very limited time complete this project.

**Subject:** March 31 Deadline Conference Call

Peter, Natalie, Zeny, Don, Athena,

With March 31 (the day we lock down energy savings values for 2010-12) fast approaching, PG&E thought it would be a good idea to have weekly conference calls to review status and provide an outlet to ask questions.

How do Tuesdays at 10 AM sound? I can set up a call-in number through March 31 if that time works for you. Or you can suggest an alternative time.

Thanks.
