Subject: RE: IOUs Need Guidane for 2010 Reporting Requirements

All,

I want to be clear: based on the decisions documented in the file, "2010 Reporting Requirements_021910MtgWUtils.doc" which was sent out from me on 2/19/2010, **Energy Division is not expecting you to submit your Q42009 reports (excel spreadsheet, E3 calcs, narratives, workpapers) or Q42009 tracking on March 1, 2010.**

The date for submittal (for everything Q42009) will be based on the proposed dates from the utilities after I consult with my management. So far I've heard a proposed date from Sempra. And I'm waiting to hear from PGE and SCE.

PG&E just sent around a call-in Outlook invite. Should we recall it, Peter, or leave it?

Sempra will be able to be on the phone at 10:30. Will someone be setting up a call-in ?

George,

PG&E can make itself available and offer a conference call number. How does 10:30 sound? Darren? Athena?

Thanks.

Athena et. al.,

Thank you for your persistence with this matter. I discussed with Energy Division management and we decided that the first report for the January 2010 reporting period will not be due on March 1, 2010. The due date for reporting of 2010 will be determined at a later time, but for now, let's hold off on submitting any reports for the January 2010 reporting period until further instructed by Energy Division.

However, I do want to talk with all the utilities about your expected deliverables for Q42009 Tracking Data, which are due on March 2, 2010. If everyone is free tomorrow I am free in the morning until 11:30AM. Could one of the utilities set up a call if everyone is free tomorrow?

Subject: RE:IOUs
Need Guidance for
2010 Reporting
Requirements

Hi, again, George!

Not to be a pest--
but we are now
half past the

month of February for preparing the January 2010 report, and we running out of time. It would be most useful if Energy Division could give us guidance on how to prepare the report but more importantly, how to represent the savings. We understand using 2008 DEER but there are several outstanding issues:

(1) For DEER measures--in using 2008 DEER, we made adjustments that we agreed to with ED regarding some of the weighting schemes. However the compliance advice letters have not been approved and this was one of the issues raised by TURN and DRA;

(2) For non-DEER measures--workpapers for non-DEER HIM measures have

not been finalized
and approved
pending
feedback/direction
from Peter; and

(3) For non-DEER
custom measures--
we have not
received
feedback/direction
from Peter.

Given that the
above are the
primary sources of
reporting savings
information, it is
unclear what
information we
should be
providing pending
resolution of the
above items.
Here are
suggestions:

(1) Delay the
monthly report
until the template
and savings
information have
been finalized; or

(2) Use old values
and explain why
the savings
changed
(dropped) after ED
provides the
updates--not our
preference since
we are knowingly

submitting
something that we
know will change);
or

(3) Provide only
the expenditure
report portion with
no savings.

We appreciate
everyone's busy,
however, we need
direction on what
to file on March 1.

Thanks!

PS Will
EEGA need to be
updated to receive
the 2010 reports.

Reporting
Requirements
for
2010

Importance:

High

Hi,
George!

I
know

you've
all
been
busy
but
we
wanted
to
check
in
regarding
the
upcoming
monthly
report
submittal
for
January
2010.
Are
we
changing
templates
or
are
we
still
using
the
2006-
2009
template?
The
2010-
2012
Decision
states
(at
page
64):

We
request
that
the
Energy

Division
review
further
all
existing
and
new
energy
efficiency
reporting
requirements
and
report
on possible
ways
to
streamline
these
requirements.

Or
will
the
final
reporting
requirements
be
part
of
the
upcoming
EM&V
decision
(see
OP
60
on
page
392)?

Your
guidance
is

always
appreciated
as
the
report
is
due
on
March
1.

Regards,

Athena
