Meeting to go over the QCR process and generic (cross-IOU findings) issues.

All 3 IOUs will be participating in this call, with a follow-up call to go over IOU specific topics.

Discussion items:

- 1) Common "problem areas" across IOUs
  - a. Debt equivalency
  - b. Price equivalency
- 2) Ideas on better aligning data between ERRA and QCR filings
- 3) Methods to incorporate changes from audit findings into QCRs, including timing and dealing with delays between audit findings and current "vintage" of QCR

- 4) Public versions of audit memos
- 5) Other IOU feedback on the 2009 QCR process
