Matthew --

Cool, sounds like a fun trip. We are headed up to the mountains next week as well, it should be great snow if we can make it up.

Yeah, I think the week after would work. Would Wednesday the 10th work for you? Should we keep it simple and go for Japanese at 1130a?

yours,

sid

Hey Sid –

Would love to grab lunch, but I plan to be on the road for Tahoe by noon in an attempt to beat the winter storm and (maybe) get snowed in for a few extra days (darn). Next week is a bit rough, but maybe the week after? (yes, I thought taking the new gig would mean I was less busy; I was wrong!!)

Matthew --

I will be attending this meeting for PG&E, at least the morning portion. I've been involved with similar issues on the water IOU side. I am still working out who will be attending from the business units, but it will be from among these:

[Redacted] and Valerie Winn VJW3@pge.com on the renewables side

[Redacted] or [Redacted] on the EE side

So, I want to know all about your new gig -- you free for lunch on Friday?

yours,

sid

All -

As reflected in the attached agenda, the Association of California Water Agencies' (ACWA) Energy Committee/Climate Change Subcommittee and the Commission's Policy & Planning Division will co-host a joint meeting at the CPUC on Monday, March 29th from 9:30-4:00. The meeting will be a joint informational meeting between ACWA's Energy Committee (ACWA Climate Change Subcommittee) and representatives from the Energy IOU's (PG&E, SCE, SDG&E).

ACWA is interested in convening this joint meeting between its Energy Committee and representatives from the Energy IOU's in order to gain a better understanding of new opportunities for partnerships between the energy and water utilities in developing renewable energy and promoting energy efficiency.

So, why am I sending this information to each of you. Two reasons really: 1) I think it would be beneficial for regulatory affairs folks to attend this meeting since, at times, business units have difficulty putting what they do in english so the rest of us can understand it. That's the first instance where you can help out. 2) Scott Hernandez, ACWA's Energy/Climate Change staff person has identified the following representatives from the energy IOUs:

Curtis Dewoody (SCE region rep. for Coachella)
Chris Brown (SDG&E)

We need assistance identifying representatives from SoCal Gas and PG&E.

The folks we are looking for would be those having responsibilities for renewable energy and energy efficiency programs - especially those that are working on developing programs or executing transactions.

If you have any questions, or want additional information, don't hesitate to contact me at 415.703.2576, or Cindy Truelove at cjt@cpuc.ca.gov.

-Matthew
