residential only - and I added the word to the first sentence of the OIR and I then intend it to carry through for the whole document

Carol --

I was wondering if you all had meant to include all classes in the suspension of deposits or just residential. It might be worth clarifying, since the non-residential credit issues are an entirely different and complicated set of problems.

I am working on preparing for settlement, and I am hoping that the OIR will be good for getting everyone to the table.

Thanks!
