Meredith,

I received your message. If it's possible, even getting rough estimates back tomorrow would be helpful. We are just trying to anticipate questions from management in our discussion of the bottleneck we are all facing.

Thanks,
Cheryl

Meredith,

Could you also provide an estimate of the percentage of retail sales (in 2013) that is represented in the contracts PG&E would like approved in 2010? For example, if SCE is currently at 15% approved, will approving the contracts included in SCE's workplan bring SCE to 20%, 33%, or other approved.

Also, is there a sense from PG&E if 2011 will look similar to 2010 in regards to the number of contracts executed and submitted for approval (or is it possible there will be more or less)?

If you could provide estimates for both questions by the end of tomorrow (Wednesday) that would be most appreciated.

Thank you,
Cheryl

CONFIDENTIAL

Paul, Sean,

Attached is the updated draft schedule. We added more potential filings at the end of the year, updated a couple of early dates and added a couple of PPAs that had been missed.

I apologize for the delay.

Have a great weekend!

Meredith
