Ok, I think this excerpt from the PPA looks promising -- I found this in my folder of stuff from last March when we were working with you on this so hopefully this is what you need. In the meantime I am trying to get in touch with the attorney to send me the whole darn PPA, but no one is at their desk right now. I'll keep working on that but check this out in meantime.

I remember that we had some conversations about what HR numbers to make public in the decision language approving the 2nd amended PPA, and this contract excerpt is confidential (provided under Section P.U Code 583). So if you feel like in the order on appeal you're going to have to go into more detail (publicly) beyond average HR numbers, let's talk, ok?

Thanks (and sorry) for getting pulled into this...

I think I need the PPA, with appendices (could be something on page A-98 perhaps?). I must have misfiled this electronically (or never had it.) I would need the nonredacted version...
