Subject: Final Logistics for 2/17 contract negotiations

Good Morning,

Here is the final information for our meeting tomorrow, February 17, at Winston and Strawn (101 California St.) in San Francisco beginning at 9:30 AM. Because our group is so large, we will be in room 39F (the main room). The intent of these meetings is to implement term sheet points that have been settled and discuss and devise a work plan for dealing with any areas of confusion. I noticed that there are some folks on the list who are coming that, to my knowledge, have not been involved in these discussion before. I will do my best to keep everyone on task and up to speed, but I want to emphasize that we are going to try to avoid any greater policy discussions and keep changes to the contracts at a workable minimum.

1) Attached to this email are the 3 most recent versions of the contracts that I have (I'm intentionally not attaching the as-available contract because the principles of the as-available program are still under discussion). We will begin with the transition contract and move from there to the RFO contract and then onto the under 20 MW contract. The plan is to go through these page by page and come up with final language (as much as possible) for all settled areas. This means we need to figure out how to incorporate our GHG pricing language, etc. I know there are still some topic areas under discussion in the smaller group, so we will only change those if we are able. If not, we'll mark for further discussion.

2) We will have a webex set up for those unable to join us in person. The webex information and telephone number is listed below.

Topic: OIR SRAC Avoided Costs (I think this is supposed to say QF contracts, but it's the general idea)
Date: Wednesday, February 17, 2010
Time: 8:00 am, Pacific Standard Time (GMT -08:00, San Francisco)
Meeting number: [Redacted]
Meeting password: (This meeting does not require a password.)

Please click the link below to see more information about the meeting, including its agenda, or to join the meeting.

[https://winston.webex.com/winston/\[Redacted\]](https://winston.webex.com/winston/[Redacted])

Teleconference: Domestic Dial-In: [Redacted]
Participant Code: [Redacted]

I believe that is everything. Please let me know if you have any questions, and please forward this along to anyone who is attending that may not be on this list.

Thanks,
Melissa

Subject: 2/17 contract negotiations

Hello,

Here are a few logistics related items for the 2/17 contract discussions:

- 1) We'll be meeting at Winston and Strawn at 9:30. I believe we'll be in room C- the room on the right if you're facing our two usual break-out rooms.
- 2) If you plan to attend, please tell me by end of day Friday so I can send the list to security
- 3) We will plan on doing the page-by-page turn method, so please come prepared with a list of areas to change/revise on each contract. We'll start with the transition contract, then move to the RFO, As-Available and Under 20 MW.
- 4) I will send out the contracts as updated as I have them on Tuesday,

Feb 16th along with a link for the Webex. (I still need an RFO contract and As-Available, but I believe some of the terms are being discussed during this week's meetings.

5) I'm really hoping this will be simply a language implementation meeting rather than a policy meeting. For those participating this week, if there are unresolved issues relating to contracts, please let me know!

Thanks to everyone!

Melissa
