Subject: CalRENEW-1_Interconnection

Gary,

Energy Division staff met recently with representatives for Cleantech America regarding interconnection problems they are having with their CalRENEW-1 project.

I understand from this meeting that PG&E is working to address these problems. However, it was not clear to me whether PG&E had identified a solution or whether there was an clear timeframe for addressing and/or solving this problem. Can you let me know what the status is on interconnecting the CalRENEW-1 project? Energy Division staff is available to meet in person to discuss this matter if that is your preference.

Regards,
Sean
