PG&E just sent around a call-in Outlook invite. Should we recall it, Peter, or leave it?

**From:** Lai, Peter [mailto:peter.lai@cpuc.ca.gov]

George,

PG&E can make itself available and offer a conference call number. How does 10:30 sound? Darren? Athena?

Thanks.

Shilpa

Athena et. al.,

Thank you for your persistence with this matter. I discussed with Energy Division management and we decided that the first report for the January 2010

reporting period will not be due on March 1, 2010. The due date for reporting of 2010 will be determined at a later time, but for now, let's hold off on submitting any reports for the January 2010 reporting period until further instructed by Energy Division.

However, I do want to talk with all the utilities about your expected deliverables for Q42009 Tracking Data, which are due on March 2, 2010. If everyone is free tomorrow I am free in the morning until 11:30AM. Could one of the utilities set up a call if everyone is free tomorrow?

**Subject:** RE:IOUs Need Guidane for 2010 Reporting Requirements

Hi, again, George!

Not to be a pest-- but we are now half past the month of February for preparing the January 2010 report, and we running out of time. It would be

most useful if Energy Division could give us guidance on how to prepare the report but more importantly, how to represent the savings. We understand using 2008 DEER but there are several outstanding issues:

(1) For DEER measures--in using 2008 DEER, we made adjustments that we agreed to with ED regarding some of the weighting schemes. However the compliance advice letters have not been approved and this was one of the issues raised by TURN and DRA;

(2) For non-DEER measures--workpapers for non-DEER HIM measures have not been finalized and approved pending feedback/direction from Peter; and

(3) For non-DEER custom measures--we have not received feedback/direction from Peter.

Given that the above are the primary sources of reporting savings information, it is unclear what information we should be providing pending resolution of the above items. Here are suggestions:

(1) Delay the monthly report until the template and savings

information have been finalized;  
or

(2) Use old values and explain why the savings changed (dropped) after ED provides the updates--not our preference since we are knowingly submitting something that we know will change); or

(3) Provide only the expenditure report portion with no savings.

We appreciate everyone's busy, however, we need direction on what to file on March 1.

Thanks!

PS Will EEGA need to be updated to receive the 2010 reports.

**Subject:** Reporting  
Requirements for  
2010  
**Importance:** High

Hi, Jeorge!

I know you've all  
been busy but we  
wanted to check in  
regarding the  
upcoming monthly  
report submittal for  
January 2010.  
Are we changing  
templates or are  
we still using the  
2006-2009  
template? The  
2010-2012  
Decision states (at  
page 64):

We request that  
the Energy  
Division review  
further all existing  
and new energy  
efficiency

reporting  
requirements and  
report on possible  
ways to streamline  
these  
requirements.

Or will the final  
reporting  
requirements be  
part of the  
upcoming EM&V  
decision (see OP  
60 on page 392)?

Your guidance is  
always  
appreciated as the  
report is due on  
March 1.

Regards,

Athena
