Meredith / [Redact]

Have you been able to find some time to tally up PG&E's various contracts?

Thank you,
Cheryl

[Redacted] and Meredith,

Following up on Friday's meeting I've been working to "classify" the 2010 filings to try and quantify the effects of streamlining the filing/approval process. Such as, if there were pre-approval for short-term contracts, that would mean 10 less resolutions for RPS staff.

I have been able to categorize about half of the projects, but could not find enough information on the others in our files. If you could finish categorizing the attached list, that would add more meaning to the streamline need. A quick turnaround is not needed, but something in a week would be helpful. If another date would be better for you, please let me know.

Thank you,
Cheryl

Subject: CONFIDENTIAL DRAFT RPS Filing Schedule

Cheryl,

Attached are the 2013 deliveries. This does not include the GWh for amendments but we can include.

I apologize for the delay in sending. We had an outage on our email system.

Thanks,
Meredith
