Subject: Re: Updated: Non-DEER meeting with IOUs

Along with Grant's suggestion to discuss schedule, we are interested in process.

For example:

- 1) if we want to use any of the lighting savings in the tool (current Index listings) do we have to do anything?
- 2) what is the process to submit custom lighting

measures such as T832 to T825 - w/o a ballast change?

3) What is we want to use the tool for custom projects - (e.g., SPC) where the hours are different from the prescriptive hours - great example police/FBI buildings in Downtown SD. Otherwise we will need the interactive effects values ASAP.

Thanks
