Subject: RE: Advance prep to support CPUC consultant

I am sorry to say that this meeting on 4/1 or 4/2 is no longer feasible. We are now looking at doing this on 4/5 - 4/6.

CPUC consultant  
**Importance:** High

Sid:

Assuming things go as we hope in the next day or two, we will need to be moving very quickly after that.

For now, on a tentative basis, please prepare to have PG&E's team and facilities available for a likely all-day meeting on Fri 4/2 involving the CPUC and the retained consultant on the investigation project. We will follow up with a draft agenda early next week. But feel free to develop your own thoughts on what should be covered at such an intro meeting to kick-off the project.

Separately, I have already received the two CDs sent by

Reza. He also mentioned he was preparing an "index" to documents. Could you check on the status of that; we would probably need it early next week.

Thanks.

Aloke

to support CPUC consultant  
**Importance:** High

Hello Sidney:

Please see attached document for additional requests for advance prep. Please consider this as a supplement to the earlier document sent to you. We can discuss this further this afternoon.  
Thanks.

**Subject:** Advance prep to support CPUC  
consultant  
**Importance:** High

Hello  
Sid:

This is to inform you that CPUC has selected a consultant to lead an independent assessment of PG&E's AMI & billing systems. We have initiated contract negotiations with the selected consultant and expect to conclude them in the near term. In parallel with this, we would like PG&E to begin preparations required to support the consultant, so their work can begin promptly upon the signing of the contract.

To get this started, please review the attached document for a suggested list of support areas to address (the list may get expanded as needed). We should arrange a meeting in a few days to discuss the progress and to resolve any questions or issues with the required support items. The consultant will be identified to PG&E at the conclusion of contract negotiations. Thanks.
