Subject: RE: Vaca Dixon Permitting

Meredith and David,

Thank you for pulling this information together. Just curious, is PG&E working on permitting other PV UOG projects or are you waiting for a final decision on A.09-02-019?

Regards,  
Sean

**Subject:** Vaca Dixon Permitting

Sean,

Below is the information that you requested.

Thanks,

Meredith

### **Permitting**

- Solano County: PG&E obtained the following permits from Solano County. PG&E consulted with the County, which agreed that these permits are ministerial. The California Environmental Equality Act (CEQA) does not apply to ministerial acts (Public Resources Code section 21080(a), (b)(1)).

- o Grading Permit
- o Building Permit
- o Encroachment Permit

- California Department of Fish & Game: PG&E conducted pre-construction species surveys and consulted with CDFG. No discretionary approvals were required under the California Endangered Species Act.

- General Order 131-D: The project is a new generation facility of less than 50 MW total net capacity and is therefore exempt from the CPCN requirement. PG&E complied with the local consultation requirement under GO 131-D.
