Subject: RE: IOUs Need Guidane for 2010 Reporting Requirements

I'll confirm the actual due date of the Q409 reports AND Q409 tracking data in SPTdb format, once I brief ED management on the issue.

So far I've met with all utilities and I think everyone understands what we need for the Q409 Tracking data to be in SPT db (standardized program tracking database) format.

There was another issue we talked about when we first met on this issue on 2/19: The date for Energy Division and the utilities to have a face to face.

Originally this was proposed to happen on 3/3/10. I can assure you we will not be able to meet this week on the requirements of the 2010-2012 reporting.

I still need to put together an outline of topics to discuss, then we can determine when we can have our face to face. It's looking more like the end of March than anything.

Thanks George. I consulted around here and we believe we can put everything in the requested format for filing by March 19, 2010. That's a two week extension from the current due date. We may need a formal letter from Julie confirming this to make sure that we aren't out of compliance with any decision. I'll have our legal folks look into

that.

All,

I want to be clear: based on the decisions documented in the file, "2010 Reporting Requirements_021910MtgWUtils.doc" which was sent out from me on 2/19/2010, **Energy Division is not expecting you to submit your Q42009 reports (excel spreadsheet, E3 calcs, narratives, workpapers) or Q42009 tracking on March 1, 2010.**

The date for submittal (for everything Q42009) will be based on the proposed dates from the utilities after I consult with my management. So far I've heard a proposed date from Sempra. And I'm waiting to hear from PGE and SCE.

Athena et. al.,

Thank you for your persistence with this matter. I discussed with Energy Division management and we decided that the first report for the January 2010 reporting period will not be due on March 1, 2010. The due date for reporting of 2010 will be determined at a later time, but for now, let's hold off on submitting any reports for the January 2010 reporting period until further instructed by Energy Division.

However, I do want to talk with all the utilities about your expected deliverables for Q42009 Tracking Data, which are due on March 2, 2010. If everyone is free tomorrow I am free in the morning until 11:30AM. Could one of the utilities set up a call if everyone is free tomorrow?

Subject:
RE:IOUs
Need
Guidane
for
2010
Reporting
Requirements

Hi,
again,
George!

Not
to be
a
pest--
but
we
are
now
half
past
the
month
of
February
for
preparing
the
January
2010
report,
and
we
running
out
of
time.
It
would
be

most
useful
if
Energy
Division
could
give
us
guidance
on
how
to
prepare
the
report
but
more
importantly,
how
to
represent
the
savings.
We
understand
using
2008
DEER
but
there
are
several
outstanding
issues:

(1)
For
DEER
measures--
in
using
2008
DEER,
we
made

adjustments
that
we
agreed
to
with
ED
regarding
some
of
the
weighting
schemes.
However
the
compliance
advice
letters
have
not
been
approved
and
this
was
one
of
the
issues
raised
by
TURN
and
DRA;

(2)
For
non-
DEER
measures--
workpapers
for
non-
DEER
HIM
measures
have

not
been
finalized
and
approved
pending
feedback/direction
from
Peter;
and

(3)
For
non-
DEER
custom
measures--
we
have
not
received
feedback/direction
from
Peter.

Given
that
the
above
are
the
primary
sources
of
reporting
savings
information,
it is
unclear
what
information
we
should
be
providing

pending
resolution
of
the
above
items.
Here
are
suggestions:

(1)
Delay
the
monthly
report
until
the
template
and
savings
information
have
been
finalized;
or

(2) Use
old
values
and
explain
why
the
savings
changed
(dropped)
after
ED
provides
the
updates--
not
our
preference
since

we
are
knowingly
submitting
something
that
we
know
will
change);
or

(3)
Provide
only
the
expenditure
report
portion
with
no
savings.

We
appreciate
everyone's
busy,
however,
we
need
direction
on
what
to
file
on
March
1.

Thanks!

PS
Will
EEGA need
to be
updated
to
receive
the
2010
reports.

Subject:
Reporting
Requirements
for
2010

Importance:
High

Hi,
George!

I
know
you've
all
been
busy
but
we
wanted

to
check
in
regarding
the
upcoming
monthly
report
submittal
for
January
2010.
Are
we
changing
templates
or
are
we
still
using
the
2006-
2009
template?
The
2010-
2012
Decision
states
(at
page
64):

We
request
that
the
Energy
Division
review
further
all
existing
and
new

energy
efficiency
reporting
requirements
and
report
on possible
ways
to
streamline
these
requirements.

Or
will
the
final
reporting
requirements
be
part
of
the
upcoming
EM&V
decision
(see
OP
60
on
page
392)?

Your
guidance
is
always
appreciated
as
the
report
is
due
on

March
1.

Regards,

Athena
