Subject: RE: Closure on Due Dates: IOUs Need Guidance for 2010 Reporting Requirements

I think this whole thread, specifically the task of you guys producing Q42009 Tracking Data in SPT DB format, is consistent with that OP you refer to. We're taking the first step together by creating the Q42009 database in a common SPT db format.

Subject: RE: Closure on Due Dates: IOUs Need Guidance for 2010 Reporting Requirements

Hi, George!

Thank you for considering our requests and providing a decision.

In the proposed EM&V decision, OP 15: Results from the final 2006-2008 evaluation reports shall be used as inputs for calculating the energy impacts of 2009 programs, for those measures and programs that were evaluated during the 2006-2008 period and all extended during 2009. The energy impacts of the 2009 program shall be reported by Energy Division before the end of 2010, or as otherwise required in R.09-11-014, R.09-01-019, or other applicable energy efficiency docket.

Assuming this is adopted how does this impact the final reporting, if at this time we do not have a final database by which to update the 2009 results, who will be updating the final 2009 results? Do you know when there will be such a database available? Would

it be more efficient to wait for the final database and we update our data before finalizing any reports to the CPUC?

I know I'm sounding pushy but it seems someone will be doing duplicative work.

Thanks.

Subject: Closure on Due Dates: IOUs Need Guidance for 2010 Reporting Requirements
Importance: High

All,

Sorry I didn't get back to you all sooner.

This is how we are going to handle the due date for the Q42009 Report (excel, E3, narratives) and Q42009 Tracking Data in SPT DB format.

PGE and SCE can submit both the Q42009 report AND the Q42009 Tracking Data in SPT DB format by next week 3/26/10.

Sempra can submit both the Q42009 report AND the Q42009 Tracking Data in SPT DB format by 5/1/2010.

This actually works out well because PGE and SCE are the largest data sets and I will need more time to review the Q42009 Tracking Database to make sure the data were populated correctly.

Note - I know Darren sent an email about the 2009 avoided cost and this entire group still has to meet to discuss 2010-2012 reporting. This email only addressed the Q42009 report and Q42009 Tracking Data in SPT db.

Thanks George. I consulted around here and we believe we can put everything in the requested format for filing by March 19, 2010. That's a two week extension from the current due date. We may need a formal letter from Julie confirming this to make sure that we aren't out of compliance with any decision. I'll have our legal folks look into that.

All,

I want to be clear: based on the decisions documented in the file, "2010 Reporting Requirements_021910MtgWUtils.doc" which was sent out from me on 2/19/2010, **Energy Division is not expecting you to submit your Q42009 reports (excel spreadsheet, E3 calcs, narratives, workpapers) or Q42009 tracking on March 1, 2010.**

The date for submittal (for everything Q42009) will be based on the proposed dates from the utilities after I consult with my management. So far I've heard a proposed date from Sempra. And I'm waiting to hear from PGE and SCE.

RE:
IOUs
Need
Guidance
for
2010
Reporting
Requirements

Athena
et.
al.,

Thank
you
for
your
persistence
with
this
matter.
I
discussed
with
Energy
Division
management
and
we
decided
that
the
first
report
for
the
January
2010
reporting
period
will
not
be
due
on
March

1,
2010.
The
due
date
for
reporting
of
2010
will
be
determined
at
a
later
time,
but
for
now,
let's
hold
off
on
submitting
any
reports
for
the
January
2010
reporting
period
until
further
instructed
by
Energy
Division.

However,
I
do
want
to
talk
with
all
the
utilities
about
your
expected
deliverables

for
Q42009
Tracking
Data,
which
are
due
on
March
2,
2010.
If
everyone
is
free
tomorrow
I
am
free
in
the
morning
until
11:30AM.
Could
one
of
the
utilities
set
up
a
call
if
everyone
is
free
tomorrow?

Subject:
RE:IOUs

Need
Guidance
for
2010
Reporting
Requirements

Hi,
again,
George!

Not
to
be
a
pest--
but
we
are
now
half
past
the
month
of
February
for
preparing
the
January
2010
report,
and
we
running
out
of
time.
It
would
be
most
useful
if
Energy

Division
could
give
us
guidance
on
how
to
prepare
the
report
but
more
importantly,
how
to
represent
the
savings.
We
understand
using
2008
DEER
but
there
are
several
outstanding
issues:

(1)
For
DEER
measures--
in
using
2008
DEER,
we
made
adjustments
that
we
agreed

to
with
ED
regarding
some
of
the
weighting
schemes.
However
the
compliance
advice
letters
have
not
been
approved
and
this
was
one
of
the
issues
raised
by
TURN
and
DRA;

(2)
For
non-
DEER
measures--
workpapers
for
non-
DEER
HIM
measures
have
not
been
finalized
and

approved
pending
feedback/direction
from
Peter;
and

(3)
For
non-
DEER
custom
measures--
we
have
not
received
feedback/direction
from
Peter.

Given
that
the
above
are
the
primary
sources
of
reporting
savings
information,
it
is
unclear
what
information
we
should
be
providing
pending
resolution
of

the
above
items.
Here
are
suggestions:

(1)
Delay
the
monthly
report
until
the
template
and
savings
information
have
been
finalized;
or

(2) Use
old
values
and
explain
why
the
savings
changed
(dropped)
after
ED
provides
the
updates--
not
our
preference
since
we
are
knowingly

submitting
something
that
we
know
will
change);
or

(3)
Provide
only
the
expenditure
report
portion
with
no
savings.

We
appreciate
everyone's
busy,
however,
we
need
direction
on
what
to
file
on
March
1.

Thanks!

PS
Will

EEGA need
to
be
updated
to
receive
the
2010
reports.

Reporting
Requirements
for
2010

Importance:

High

Hi,
George!

I
know
you've
all
been
busy
but
we
wanted
to
check

in
regarding
the
upcoming
monthly
report
submittal
for
January
2010.
Are
we
changing
templates
or
are
we
still
using
the
2006-
2009
template?
The
2010-
2012
Decision
states
(at
page
64):

We
request
that
the
Energy
Division
review
further
all
existing
and
new
energy

efficiency
reporting
requirements
and
report
on possible
ways
to
streamline
these
requirements.

Or
will
the
final
reporting
requirements
be
part
of
the
upcoming
EM&V
decision
(see
OP
60
on
page
392)?

Your
guidance
is
always
appreciated
as
the
report
is
due
on
March

1.
