Subject: RE: Advance prep to support CPUC consultant

Sid:

Assuming things go as we hope in the next day or two, we will need to be moving very quickly after that.

For now, on a tentative basis, please prepare to have PG&E's team and facilities available for a likely all-day meeting on Fri 4/2 involving the CPUC and the retained consultant on the investigation project. We will follow up with a draft agenda early next week. But feel free to develop your own thoughts on what should be covered at such an intro meeting to kick-off the project.

Separately, I have already received the two CDs sent by Reza. He also mentioned he was preparing an "index" to documents. Could you check on the status of that; we would probably need it early next week.

Thanks.

Alope

to support CPUC consultant
Importance: High

Hello Sidney:

Please see attached document for additional requests for
advance prep. Please consider this as a supplement to the earlier document
sent to you. We can discuss this further this afternoon.
Thanks.

Subject: Advance prep to support CPUC
consultant
Importance: High

Hello
Sid:

This is to inform
you that CPUC has selected a consultant to lead an independent assessment of
PG&E's AMI & billing systems. We have initiated contract
negotiations with the selected consultant and expect to conclude them in the
near term. In parallel with this, we would like PG&E to begin
preparations required to support the consultant, so their work can began
promptly upon the signing of the contract.

To get this started,
please review the attached document for a suggested list of support areas
to address (the list may get expanded as needed). We should arrange a
meeting in a few days to discuss the progress and to resolve any
questions or issues with the required support items. The consultant
will be identified to PG&E at the conclusion of contract negotiations.
Thanks.
