Subject: RE: PG&E SmartMeter Outreach Events Update - 3/11/2010

Kate,

Thanks for the additional information on your planned events - this is very helpful. I'll look forward to receiving updated information on your SmartMeter events weekly on Thursdays, and I hope we can continue to coordinate our outreach going forward. Drew Cheney, our Outreach Officer for much of PG&E's territory, and I would like to attend several of the events you have planned this month. I have listed them below:

3/18	7:00pm	San Jose	Country Lane Neighborhood Association
3/19	3-8 pm	Fresno	WeConnect
3/19	TBD	Redwood City	San Mateo County City Managers Association
3/22	6:00pm	Madera	Maderos Ranchos Community Meeting
3/23	10:30am	Sacramento	California Agriculture Day
3/24	6:00pm	Fresno	Fresno Customer Advisory Group

Can you please let the PG&E staff responsible for these events know of our intention to attend? Also, if possible, can you let me know the time of the event in Redwood City as soon as it is finalized? It would be helpful if I had information on the time of that event prior to your update on Thursday, 3/18.

Thanks for your assistance, and I look forward to our continued coordination on outreach in the future.

Warm regards,
Sommer

Subject: PG&E SmartMeter Outreach Events Update - 3/11/2010

Marzia, Sommer and Bruce - Attached you will find an updated list of PG&E's currently planned SmartMeter Customer Outreach events. The next event is one we are partnering with the CPUC on (I believe Marzia is speaking) on Friday in Walnut Creek.

As we've discussed, this is a living document, and we are working to add new opportunities every day. As such, details for some of the events here, which are marked with an asterisk, are still being confirmed (for example, which PG&E staff member will lead the event, day for the event if it is something like a Rotary Club that meets every Monday, etc.). I will send you an updated list every Thursday, and highlight any changes from the previous week's list.

Because some of the events are very localized community events, such as our own Customer Advisory Groups in Bakersfield and Fresno or a neighborhood association group, it may be helpful for me to let the PG&E staff member leading an event know when your teams plan to attend. While not required of course, it would ensure that your teams have the proper access they need at any event they choose to attend. Please let me know your thoughts on this kind of coordination. Thanks, and please call me any time with questions.
