Subject: RE: vendor list / URGENT!

I'll do it first thing, Alope.

Subject: vendor list / URGENT!

Hi:

Can one of you put together a list of all the vendors/supplies involved with PG&E's AMI/billing systems (from meter to billing) and planning/deployment/operation of the equipment/systems. We are looking for those that an outside person would reasonably consider a key component of the end to end system or a key player in the planning/deployment/operation of related system (don't list every last vendor of every little piece or action).

As you might imagine, this is to check on conflict of interest issues involving the consultant. We need this list in the morning. I hope that is possible (by 10AM?). We should have thought this earlier.

Thanks.

Alope
