QUESTION 5

Based on DRA's review of PG&E's internal audit report – File # 07-009 (1B6-1575), Re: Review of Performance Metrics, PG&E's internal audit group noted the Utility lacks precise documentation for internally generated metric formulas and assumptions, and a lack of adequate control over the review of and approval process. Based on this, were any adjustments made to the short-term incentive plan? If yes, then what adjustments? If not, then why?

ANSWER 5

No. The Utility did not adjust the short-term incentive plans based on these audit findings because the Utility determined that the resulting calculations were correct.
