**SUBJECT: ELECTRIC DISTRIBUTION OPERATIONS AND MAINTENANCE EXPENSES FOR MWC BF, BG, AND BK**

**QUESTION 2A**

PG&E forecasted \$40.712 million for MWC BF. This is an increase of \$7.487 million or 22.53% over 2008 recorded adjusted expenses of \$33.225 million. PG&E's MWC BF includes individual forecasts for ten subaccounts/line items. The questions below relate to the following five subaccounts/line items and forecast: \$4.984 million for Poles Patrolled, \$11.122 million for Poles Inspected, \$2.398 million for Enclosures Patrolled, \$10.464 million for Enclosures Inspected, and \$0.857 million for Poles Infrared Inspected.

a) Provide the number of units/poles patrolled and the unit cost for 2009.

**ANSWER 2A**

PG&E objects to this question on the grounds that the question asks for actual 2009 data, which is not the basis of PG&E's 2011 GRC request. Notwithstanding the foregoing, and without waiving PG&E's right to object to the admissibility of the requested information into evidence, PG&E responds as follows.

The preliminary 2009 recorded units and unit cost data for poles patrolled are as follows: 1,214,500 units and \$3.51, respectively.
