Date Sent:	March 2, 2010	Requesting Party:	Energy Division
PG&E Witness:	N/A	Requester:	Bruce Kaneshiro

QUESTION 1

In PG&E's January 2010 Monthly SmartMeter™ Project (AMI) Executive Steering Committee Summary Report, PG&E provides a rough schedule of where PG&E intends to deploy smart meters for the next 6 months along with planned customer education events (see Slide 19). Please provide the specific date, time and location (specific address) for each of the customer education events that are listed on Slide 19.

ANSWER 1

Attachment ED_022-01-1 provides the specific date, time and location for the nine SmartMeter™ customer outreach events planned for March.

The March events shown in the January 22, 2010 SmartMeter™ Steering Committee Update Report (twelve planned outreach events in March) and the February 23, 2010 Report (three planned events in March) were preliminary. The closer the date of the actual events, the more firm the plans become as schedules, invitations, and resources are confirmed.

In addition to reporting on planned events in the SmartMeter™ Steering Committee Update Reports, PG&E proposes that the CPUC Staff work directly with PG&E's representative so they may receive the most up-to-date information on the time and location of events. Please contact [Redacted] directly at [Redacted] to confirm the time and location for any event.
