Subject: RE: Custom project review process draft doc version 2

Dear All,

Attached is a zipped file that I've renamed so you'll have to rename back to .zip to unzip it. In the zipped file are two files which document the proposed fixes and updates of the DEER database from version 2.03 released in December of 2008 to the current version (3.02). The PDF document discusses the background for the update and presents some graphics that demonstrate the changes in energy impacts

between the two database versions. The spreadsheet is the source of the graphics and allows the a wider comparison of the changes.

We will talk about this and the custom application review process on Monday's meeting starting at 2:30 PM. Please use the call-in number: [Redacted] [Redacted] with passcode: [Redacted]. SCE will looking into whether they will have a WebEx available.

Thanks.
