**ANSWER 6 – SUPPLEMENTAL**

PG&E objects to this question on the grounds that the question asks for actual 2009 data while PG&E’s 2011 GRC request is based upon 2008 recorded data. Notwithstanding the foregoing, and without waiving PG&E’s right to object to the admissibility of the requested information into evidence, PG&E responds as follows:

Please use the following revised table, which adds 2009 recorded capital for real estate’s building seismic safety program to the 2009-2013 forecasts provided in Table 6-14 on

page WP 6-24 of the workpapers supporting Exhibit (PG&E-7), Chapter 6. The table has been revised from the original response to correctly reflect the 2009 recorded capital expenditures for the SF Garage – Seismic Upgrade Project.
