Use the numbers -- they are what we've given you and structure. But we're paranoid b/c of the lawsuit. We fought about this all day.

Do I seem terse? Blame the thumb keyboard.

Kinda shocking, huh? I like it. Helen will be using these numbers, but not this handout, on Mon.

Do I seem terse? Blame the thumb keyboard.

hey,

this is pretty nice.

thanks,

marz

Subject: Breakdown of meter issues

Julie --

Please find attached a sheet that makes a comparison with the performance of SmartMeter compared to the legacy meters. I thought you would be interested in this because it shows a taxonomy of different meter problems -- installation, measurement, data storage, and communications -- with the numbers. This is to supplement the sheet that we gave you all on Monday, which focused only on measurement issues.

Let me know if you have any questions.

yours,

sid
