I will route the request to the appropriate internal contact who deals with EMF to get a communication to Deborah from the manufacturer. I'll check in when I have a timeline of how quickly we can get something to her. Thanks for passing it along.

hey guys,

a woman last Wednesday wants a letter from the smart meter manufacturer telling her that the smart meter's EMF levels are at or below industry standards. can you please get this to your manufacturer; she will make a huge deal about this if there's no contact with her. Please let me know the next step.

thanks,  
marzia
