Subject: RE: Energy Div Opt out status letter to MEA 4-16-10

Yes, thanks for your patience. Attached is a draft of the generic version of the early-opt-out letter. As I indicated Friday, this looks very similar to the MEA-specific version. Let us know your thoughts about this letter.

In the meantime, the team here is working to get the MEA letter out to timely comply with Resolution E-4250. PG&E will use the version of the letter that you sent to me on Friday at 5:07 p.m., Gurbux. Would you like me to confirm with you when those letters are sent out to customers?

Thanks, Trina. I assume you will be sharing that with us shortly as well.

Thanks, Gurbux, for the very quick review and feedback - it's much appreciated. I've forwarded to the team and reminded them we need to get to you the generic version of this letter. As I told Carlos, I expect that will look substantially similar to our proposal for the MEA letter.

Trina, here are a couple of minor edits.
