hey guys,

a woman last Wednesday wants a letter from the smart meter manufacturer telling her that the smart meter's EMF levels are at or below industry standards. can you please get this to your manufacturer; she will make a huge deal about this if there's no contact with her. Please let me know the next step.

thanks,
marzia

The lady requesting letter from manufacture called today. Her contact information Redacted, So give her a call, and let me know the outcome.
Thanks
