Subject: RE: TREC data request

Clarification: Please use the CEC numbers for forecasts only (2010-2020), and note that while the spreadsheet opens up to the procurement tab, there are previous tabs that require inputs.

For the CEC forecast, use your IOU's bundled deliveries on tab 1.1c
http://energy.ca.gov/2009publications/CEC-200-2009-012/adopted_forecast_forms/Chap1Stateforms-Adopted-09.xls

Thanks!

**Subject:** TREC data request

Hi,

By 5pm on Tuesday, April 20, please provide four versions of the attached spreadsheet:

Case A. Using IOU's load forecast and assuming 100% success rate for all projects  
Case B. Using IOU's load forecast and assuming 70% success rate for all projects that are not yet online

Case C. Using CEC's load forecast and assuming 100% success rate for all projects  
Case D. Using CEC's load forecast and assuming 70% success rate for all projects that are not yet  
online

Include all projects that have been executed and that are still under negotiation, including bilaterals and solicitation contracts. Email Amy Baker and me if you have any questions about the spreadsheet or the request.

Thanks,  
Sara
