Subject: Agua Caliente language

Meredith and Redacted,

Please review the draft language below for Agua to make sure there is no confidential information. Please propose alternate language if necessary.

Meredith - you never got back to me about the WREGIS REC STC per the TREC decision. It looks like substantively it is already included in the PPA, but it's not verbatim. Let me know if I am missing something. In the future, since this is a non-modifiable STC, any contract that is amended for STCs should include the Commission required WREGIS language.

Description of Supplemental AL:

PG&E filed Supplemental AL 3538-E-A to amend contract terms and conditions related to transmission network upgrade costs and to include RPS standard terms and conditions, pursuant to D.10-03-021.

Finding to address debit to Agua for network upgrade costs and the credit for the TAC payments.

All payments made or received under the PPA shall be made through PG&E Energy Resource Recovery Account.

Regards,
Sean
